Amazing for a 94-year-young chairman at Sun Moon Lake

Some of the staff of Chung Shan Medical University and members of the Rotary Club gathered together in Sun Moon Lake by Feb. 6th to greet the Chinese New year of “Tiger” and also to celebrate the founder and board director Dr. Ju-Chuan Chou's 94-years-old birthday.

Dr. Chou joined in the celebrating performance joyfully, and in this delightful moment, I took the photo of the 94-year-young chairman and this was the most exciting photo I have ever taken. Everyone enjoyed the natural beauty of lakes and mountains and at the same time to experience the “Beauty of Life” .
